Supplementary Notes to the Historical Scripts of Qing Dynasty — Main Documents (2) of Tai Zong

Jian-guo Hu

Abstract

The paper is mainly based on the original and revised historical scripts on Emperor TaiZong of Qing Dynasty. I also refer to the ancient documents written in the Manchurian language, the Manchurian archive files located in the organizations in charge of national history, the Manchurian anthology edited in the 3rd year of Chongde and the historical data of Ming and Qing dynasties recorded by people in Ming Dynasty. Also included for reference are : foreign historical data like A Real Story of the Korean Dynasty, relevant texts made by contemporary authors and Emperor TaiJi's A Historical Demographics on the Main Land of China. I make supplementary notes to the historically original scripts, correct the mistakes available and list the controversial parts as they are.
